Paraffine Cannel Coal Oils for Lubricating Machinery.

In Scotland the Cannel Coal-Oils have been very fa orably known and extensively used in the place of cin, for the last few years. Oils of a similar nature i quality are now being made by the Union Coal and Company, and are very highly valued wherever nown. This Oil has the same weight and will bear he same temperature, when winter strained, as the best Sperm, and is fully equal to it as a Lubricator having been subjected to the severest tests upon both heavy and light machinery, and given entire satisfaction. This Oil is peculiarly adapted to Railroads, Cot. ton Spindles. Machine Shops, and all machinery where a fine Oil is required. It is more economical than ordinary Oils, as it is sold at about the same price and as half the quantity will do an equal amount of obrication and do it better.

This Oil being entirely without gum, should be used the same manner as the finest sperm. The openings the cans and feeders used for ordinary coarser Oils hould be reduced, otherwise, the Oil will be wasted. These Oils will be furnished to dealers at the factory prices, adding freights, insurance, and exchange, and all Oils sold by this company are fully guarranteed as

This will certify that we are using the Paraffi Cannel-Coal Oil made by the Union Coal and Oil Com pany, Maysville, Ky., in our Machine Shop and on the otives on the road, and have tested the Oil verarefully to discover its qualities; we are entirely co aced it is a very fine Or for machinery, and that on n of this Oil is fully equal to two gallons of the best Lard Oil. It being entirely free from gum, our ma-chinery will run with less power than with any Oil we have used. Although the Gil has a thin appearance

it has a lubricating body superior to any Oil in ordinary use and it is well adapted to Railroads. C. B. KNOWLES, Master Mechanic, Nashville and Chattanooga Railroad Mr. Knowles is Master of Machinery of our Road, and a reliable man in whose statements we would confide V. K. STEVENSON, President,

We are using the Paraffine Cannel Coal Oil in our Ma-chine Shop, and take great pleasure in stating that we have never used any Oil equal to it. It will wear very greatly longer and lubricate more thoroughly than the best quality of Lard or other ordinary oil, is free from gum, and is just such an oil as is needed for machina y. This will certify that I am using the PARAFFINE ANNEL COAL Oil, manufactured by the Union Coa and Oil Company of Mayeville, Ky, in our machine shops and on the locomotives on the Memphis and incleston Railroad, and have given it the several order to prove its qualities as a lubricating if. I have no hesitation in recommending it as a su error oil for Railroad purposes, both in regard to conomy and as a perfect Lubricator. I bel be the best of I have used, and that one gallon will go as far as two gallons of Lard Oil. The machinery is now running in the shops with twenty per cent. les power than is required for ordinary oil. The fluidity of the oil arises, I am convinced, from the total ab-sence of gem, and does not effect us lubricating properties, but only requires that the orifices in the

To the Enfon Coul and Oil Company; GENTLEMEN—Having used your Lubricating Oil, made from Cannel Coal, on the machinery of our Cotton Mails (including Engine and Spindles), for the last few weeks, we are prepared to say that we have found it greatly superior to any other, excepting the best erm, and fully equal to that article, for two dollars and twenty-five cents per gallon. The Oil distributes very perfectly over th wears long, and is free from gom, which causes fric lion, and consequently heat adopted it for our Mills. From the low price at which it is sold we doubt not it must come into general use.

Mr. SAVAGE, Md., July 7, 1856. DEAR Six:-In consequence of taking cold after a bac attack of the measles, some eleven years since, I have from that time suffered greatly with a disordered liver and stomach. I have been at times so bad that my life was despaired of. I was induced some time ago, brough the persuasion of a friend, Mr. Henry Shafer, to try a bottle of Hoofland's German's Bitters, thinking if it done no good it could do no harm, and knowing Mr. Shafer to be a gentleman who would not remmend any thing to me that he did not have confidence in. Before I had taken one third of the bottle, my bowels became regular and I had a fine appetite. When I had used two-thirds of it I considered my health as good as ever it was, and could eat anything, without its disagreeing with me in the least. I now keep a bottle of the litters in the house continually and in case I take cold, or I feel unwell, I take one or two doses, and it makes a change in my bowels which is all I need, wherefore, for the past eleven years, my doctor bill has been from \$10 to \$25 per year, besides
